EXPERIENCE

Qally's and 80,000 hours   *June 2024 - Present*
Contract Software Engineer
- Developed a script that automated a part of 80k's outreach team saving them > 60,000 $ USD a year.
- The script automatically found information on subscribers and used AI to score the urgency with which 80k should reach out to them.

METR   *March 2024- Present*
Contract Software Engineer
- Built an LLM bot to automate resume scoring.
- Built an arxiv scraper to find authors likely to have Evals useful to METR.
- Primary developer on the PR-task-pipeline, which aims to source a steady stream of evals from github pull requests.
- Wrote a script that automates the process of finding the contact information of top ML grad students in the US.

SELECTED PROJECTS

Nexus   *December 2023 - March 2024*
- Developed a full-stack web application using **Node.js, React, Python and Firebase**, allowing users to upload, save and search for over 1000 extracurricular activities.
- Project won 2nd place and seed funding in a national entrepreneurship competition with over 1200 teams.

EXTRA-CURRICULARS

Chess
- Winner of Vivum Chess 2022, a major tournament with 100s of players across India. Finals streamed on youtube.
- Led school chess team, winning several competitions for the first time in School's history.

Piano
- Performed the piano in several charity concerts throughout India with 100s of audience members.
- Achieved Distinction in Trinity College London's Grade 7 Piano exam.

Eventlore   *April 2021 - March 2022*
- Founded an organization during lockdown with 11 volunteers at its peak.
- Hosted remote events such as chess tournaments and hackathons for students in order to raise money for effective charities
